

I-DROP® VET

I-Med Pharma

LONGER-LASTING VISCOADAPTIVE LUBRICATING OR MOISTENING AGENT FOR THE EYE SURFACE WITH SODIUM HYALURONATE

INDICATIONS

I-Drop® Vet is a longer-lasting viscoadaptive lubricating or moistening agent for the eye surface. **I-Drop® Vet** is recommended for use in species such as dogs, cats and other pets. **After use discard opened container. Do not reuse.** Keep unused container at room temperature (25°C/77°F).

DIRECTIONS

Check that none of the unit dose containers are damaged. Carefully break off one of the unit dose containers from the others. To open twist off the tab and instill 1 or 2 drops on the cornea(s) as needed. Throw the unit dose container with any remaining solution away. Repeat as often as required.

CONTAINS

I-Drop® Vet is a viscoadaptive, preservative-free, sterile, long-lasting lubricating or moistening agent for the eye surface.

Contains:

Water for injection, sodium chloride, sodium hyaluronate, glycerin, disodium hydrogen orthophosphate dihydrate, sodium dihydrogen phosphate dihydrate.

WARNING

If the patient experiences eye pain or discomfort, continued redness or irritation of the eye for more than 24 hours, or if the condition worsens, discontinue use and consult your veterinarian as soon as possible. Do not apply **I-Drop® Vet** in an infected eye. To avoid contamination, do not touch tip of container to any surface. Do not use this product if the patient is allergic to any of the ingredients.

To minimize the risk of contamination and eye infection, DO NOT use beyond the discard date on the product label. Do not use if unit dose container is damaged. Do not use if the solution is cloudy or discolored. Do not use opened container more than one. **I-Drop® Vet** may modify the effects of other eye drops or eye medications. Do not use with other eye drops or any form of topical eye medication without consulting your veterinarian.

HOW SUPPLIED

I-Drop® Vet is supplied in a unit dose container with a fill volume of 0.3mL. Each box contains 20 unit dose containers. Do not use if the safety seal on outer box is damaged.

Store at controlled room temperature, 59° - 77°F (15° - 25°C). Prevent from freezing. Do not store in sunlight. The contents of the unit dose containers are sterilized by filtration and assured sterile only if the unit dose container is not damaged.
