PANCREZYME®

Virbac

Active Ingredient(s): Each 425 mg tablet contains:

Lipase	9,000 U.S.P. units
Protease	57,000 U.S.P. units
Amylase	64,000 U.S.P. units

Each teaspoonful (2.8 g) contains:

Lipase	71,400 U.S.P. units
Protease	388,000 U.S.P. units
Amylase	460,000 U.S.P. units

PANCREZYME® is an enzymatic concentrate derived from porcine pancreas containing standardized lipase, protease and amylase plus esterases, peptidases, nucleases and elastase.

Indications: For use in animals with deficient exocrine pancreatic secretions, as a digestive aid in enzyme replacement therapy where digestion of carbohydrate, protein and fat is inadequate.

Dosage and Administration: The dose should be adjusted according to the severity of the condition and the weight of the animal.

Tablets: Adult dogs: The average dose is 2-3 tablets with each meal.

Adult cats: 1/2-1 tablet with each meal.

Powder: Adult dogs: 3/4-1 teaspoonful with each meal.

Adult cats: 1/4-3/4 teaspoonful with each meal.

Mix well with moistened food (canned or dry) and let stand at room temperature for 15-20 minutes before feeding. Frequent feeding, at least three (3) times a day is important.

Precaution(s): Discontinue use in animals with symptoms of sensitivity.

Caution(s): Federal law restricts this drug to use by or on the order of a licensed veterinarian.

Presentation: PANCREZYME[®] Tablets 425 mg - Bottles of 100 and 500 tablets.
PANCREZYME[®] Powder - Bottles of 4 oz., 8 oz. and 12 oz.

NAC No.: 10230770
